EXECUTIVE SUMMARY

The South Fork Kings Groundwater Sustainability Agency (SFKGSA) was formed in 2017 under the auspices of the Sustainable Groundwater Management Act (SGMA). This formation was designed to conform to the provisions of SGMA that require the management of the portion of the groundwater basin underlying the SFKGSA members, with the direction to develop, adopt, and implement a Groundwater Sustainability Plan (GSP) for sustainable management of groundwater of its members. SFKGSA requires an assessment rate structure sufficient to fund SFKGSA operations that allow it to implement activities to manage groundwater resources and to achieve groundwater sustainability per SGMA. SFKGSA developed and submitted a GSP to the California Department of Water Resources (DWR) on January 30, 2020 and an Addendum in 2022. The GSP discusses projects and sustainable practices that will be implemented to achieve groundwater sustainability in its portion of the critically over-drafted Tulare Lake Subbasin by 2040. The GSP will be updated by December 2023. If SFKGSA is financially unable or unwilling to manage their own subbasin, the State Water Resources Control Board (SWRCB) is authorized to intervene, impose, and collect significant fees and charges many times more expensive than what SFKGSA proposes, and develop and implement an interim GSP. More information on SGMA in general can be found on the DWR and SWRCB website.

A financing structure and assessment was developed in the 2018 Proposition 218 Engineer's Report and levied by the SFKGSA from 2019 through 2023. As that assessment has sunset in July 2023, SFKGSA, to continue to fulfill its mandate for managing underlying groundwater resources within its boundary, determined that a property-based assessment remains the proper funding mechanism to support SFKGSA operations to provide a localized coordinated structure for the ongoing management of the GSA.

The SFKGSA engaged Geosyntec Consultants to prepare an Engineer's Report for an assessment structure that would support the operation of SFKGSA for the next five (5) years. As part of the study, SFKGSA's project administration with on-going engineering tasks and update of the GSP were the basis for the assessment. This current evaluation takes an approach, similar to the 2018 Proposition 218 Engineer's Report, to develop the assessment structure to fund future operations with a proposed five-year budget beginning with Fiscal Year 2024. This budget reflects the limitation of the proposed five (5) year sunset on the life of the proposed assessment. Based on the projections, revenue generated would meet the proposed budgetary requirements of SFKGSA for future operations. The assessment would be compliant with Proposition 218 with a simple majority vote of the unincorporated landowners within the boundaries of SFKGSA.

Findings and Recommendations

SFKGSA is requesting landowner approval to levy assessments in accordance with Table ES-1. Total annual charge for eligible parcels is not to exceed $10.10 per acre. The components that make up the total are shown in the table and explained further in this report. The assessment amount levied by SFKGSA may vary annually but will not exceed the maximum amount unless a subsequent Proposition 218 proceeding is conducted and received the approval of a majority of the unincorporated landowners.

The per-acre assessment rate for unincorporated landowners within the boundaries of the SFKGSA will be reviewed annually by the Board of Directors (Board). The assessment rate can be approved for a value not to exceed the maximum of $10.10 per acre. The current boundaries of the SKFGSA encompasses parcels totaling 71,313 acres, which includes 5,638 acres in the City of Lemoore. Of the 71,313 acres, approximately 65,230 acres are eligible for the assessment as the other lands are owned by federal, state, or local governments.

The City of Lemoore will participate in GSA cost sharing by agreement on behalf of all property in the City limits and has incorporated the ongoing payments into their existing rate structure. The annual assessment rate will be based upon SFKGSA needs for the next year. This allows SFKGSA to anticipate changes in operating costs without repeating the Proposition 218 process and incurring those associated costs.

The assessment process is being conducted in accordance with provisions of Proposition 218, as reflected in Article XIII D of the California Constitution and Sections 53750 through 53756 of the State's Government Code. These constitutional and statutory provisions implement Proposition 218. They established mandatory procedures that local agencies must follow to levy certain assessments on lands. SFKGSA has made the decision to follow the provisions of Proposition 218 in part because its procedures support fully informing SFKGSA's unincorporated landowners while providing an avenue for local control and participation.

The Board will hold a public hearing in November 2023 at which all unincorporated landowners affected by the special benefit assessment may participate and are entitled to vote upon the proposed maximum assessment rate. This hearing will follow the acceptance of this Engineer's Report by the Board. At the public hearing, SFKGSA will consider and address comments and questions from SFKGSA unincorporated landowners. Unincorporated landowner ballots received prior to and by the close of the public hearing will then be counted and the election results will be certified.

Assessment Rate Projections

Table ES-1: Proposed Rate for SFKGSA

Assessment Rate	
Total Annual GSA Charge per Acre	$10.10
Lemoore Allocation[1]	$56943.89

Note:

[1] Based on the total area within the city limits of Lemoore. As of the date of this report, the city limits were approximately 8.81 square miles, or 5,638 acres. If the city annexes additional property, this calculation would need to be adjusted accordingly to accommodate the increase in acreage.

1. INTRODUCTION

1.1 Purpose

The South Fork Kings Groundwater Sustainability Agency (SFKGSA) was established for the purposes of implementing the Sustainable Groundwater Management Act (SGMA), which was adopted by the State Legislature in 2014 and is now part of the California State Water Code (Part 2.74 of Division 6, beginning with Section 10720). SGMA was enacted to more effectively manage critical groundwater resources across the State and provide a localized coordinated structure to manage groundwater supply.

The California Department of Water Resources (DWR) administers the implementation of SGMA. DWR developed a series of regulations that included requirements to form Groundwater Sustainability Agencies (GSAs) in all groundwater basins in the state. These GSAs are required to develop groundwater sustainability plans (GSPs) that will ensure sustainable groundwater conditions, as defined in the SGMA legislation, within 20 years of plan implementation. If local GSAs are unable or unwilling to manage their own basin, the State Water Resources Control Board (SWRCB) is authorized to intervene, impose, and collect fees and charges, and develop or implement a GSP. More information on SGMA in general can be found on DWR's website.[1]

The SFKGSA manages the northwestern portion of the Tulare Lake Groundwater Subbasin (Basin ID 5-022.12). Figure 1-1 shows the Tulare Lake Subbasin and the boundaries of the GSAs within the subbasin, with the SFKGSA identified by the crosshatch and additional outline. The SFKGSA was formed under a Joint Powers Authority (JPA) agreement (see Appendix A) executed in March 2017, that includes:

- City of Lemoore
- Empire West Side Irrigation District
- Stratford Irrigation District
- Stratford Public Utilities District, and
- The County of Kings

In coordination with other GSAs in the Tulare Lake Subbasin, the SFKGSA prepared and submitted a GSP to DWR on January 30, 2020. The Tulare Lake Subbasin Groundwater Addendum was submitted in July 2022 in response to DWR's Incomplete Determination.

The SFKGSA established a methodology to generate financial resources to create and begin implementation of the 2020 GSP, with the passage of a Proposition 218 assessment in 2018. The assessment structure was utilized to fund SFKGSA expenses and the preparation and implementation of the 2020 GSP from 2019 through 2023.

With the existing assessment due to sunset in 2023, the SFKGSA Board of Directors (Board) directed the development of a financial plan that utilizes Proposition 218 to propose a monetary

[1] http://www.water.ca.gov/groundwater/sgm/

assessment that would continue to finance the administration of the SFKGSA itself, as well as fund the update of the GSP. Under Proposition 218, this assessment would be put to a vote of property owners in the SKGSA.

This engineer's report sets forth an assessment structure, similar to the one presented in 2018. The assessment structure would allow for the expenses of the SFKGSA to be proportionally distributed to unincorporated property owners within its jurisdiction, in accordance with the mandates of Proposition 218.

1.2 Ability to Assess Property and Proposition 218

SGMA expressly states that a GSA has the ability to levy fees and utilize various other funding and financing mechanisms. For example, Water Code 10730 and 10730.2 authorize the imposition of fees including but not limited to permit fees and fees for groundwater extractions. However, the SFKGSA is also authorized under California law to adopt property-based assessments, as was previously done in 2018, in order to fund its administration and SGMA compliance activities. Property-based assessments, such as the one proposed in this report, must be adopted in accordance with subdivisions (a) through (g) of Section 4 of Article XIII D of the California Constitution, more commonly referred to as Proposition 218.

Under Proposition 218, any agency proposing to levy a charge, assessment or fee must:

1. Identify all parcels that will have a special benefit conferred upon them and upon which an assessment will be imposed.
2. Prepare a detailed engineer's report by a registered professional engineer certified by the State of California.
3. Calculate the amount of the proposed assessment for each identified parcel and provide the record owner of each parcel with written notice by mail of the proposed assessment, the total amount thereof chargeable to the entire district, the amount chargeable to the owner's particular parcel, the duration of the payments, the reason for the assessment and the basis upon which the amount of the proposed assessment was calculated, together with the date, time, and location of a public hearing on the proposed assessment.
4. Mail a ballot and notice to owners of identified parcels within the district which includes the agency's address for receipt of the ballot once completed by any owner receiving the notice whereby the owner may indicate his or her name, reasonable identification of the parcel, and his or her support or opposition to the proposed assessment.
5. Conduct a public hearing upon the proposed assessment not less than 45 days after mailing the notice of the proposed assessment to record owners of each identified parcel to tabulate results.

1.3 Other Requirements

If approved, the assessment would normally be forwarded to the Kings County Tax Collector's and/or Assessor's Office. The County would then apply this assessment to the property tax bill of the parcels within the GSA for collection. Within the constraints of the property tax assessment process as prescribed by State regulation, the County would collect the funds for the assessments through the property tax collection process and then disperse the funds accordingly to the GSA.

However, as the deadline for the tax year has passed, the assessments for FY 2023/2024 will be mailed directly from SFKGSA to the eligible landowners. Future assessments will be included on the property tax assessment.

2. AGENCY OVERVIEW AND HISTORY

2.1 Background

The SFKGSA was formed in March 2017 to fulfill the role of a GSA so the five-member agencies can collectively develop, adopt, and implement a GSP for the sustainable management of groundwater for a portion of the Tulare Lake Subbasin.

The GSA is comprised of five (5) directors from entities within the boundaries of SFKGSA. Staff and technical support are provided by GSA employees and outside counsel and technical consultants.

2.2 Water Supply in the South Fork Kings

Water supplies in the SFKGSA are a combination of both surface and groundwater. The primary users of the water supply are municipal, domestic, industrial, and agriculture.

The primary source of surface water supply is the Kings River, although some State Water Project supply is available along the western boundary of the GSA. The Kings River is regulated by the Pine Flat Dam and is used primarily for irrigation purposes. The surface water supplies are managed by the following irrigation companies and water districts in the SFKGSA:

- Lemoore Canal and Irrigation Company
- John Heinlein Mutual Water Company
- Empire West Side Irrigation District
- Stratford Irrigation District

The groundwater subbasin underlying the GSA is the Tulare Lake Subbasin, which is part of the Tulare Lake Hydrologic Region and is immediately adjacent to the south boundary of the Kings Subbasin. A significant amount of groundwater is pumped within the GSA area to meet municipal, domestic, and agricultural water needs. Municipal and domestic water supply needs are met completely with groundwater. The City of Lemoore obtains all potable water from groundwater, utilizing eight wells located both within the city limits and to the north of the City. Numerous domestic wells are also located in the unincorporated area of the GSA to provide household water.

Groundwater is also used to supplement agricultural needs when surface water supplies are insufficient to meet demand. Surface water, which has been limited in recent years, is not available at times and locations to meet agricultural demand. Groundwater pumping to meet demand results in an “overdraft” situation. In addition, urban growth has further increased groundwater pumping. The subbasin is and has been in overdraft for many years, with groundwater elevations declining between 5 and 20 feet annually in many locations within the subbasin. Managing this overdraft is a primary objective of the SFKGSA.

Groundwater recharge in the GSA occurs primarily through rainfall, infiltration along river and stream channels emerging from the Sierra Nevada, and by irrigation water which percolates through unlined canals or is not consumed by plants. Balancing this recharge with pumping (and enhancing recharge through specific projects) is an important component of the GSP.

2.3 Jurisdiction, Authority, and Management

The authority of the SFKGSA is derived from SGMA. The GSA is responsible for developing and implementing a GSP to meet the sustainability goal of the basin to ensure that it is operated within its sustainable yield, without causing undesirable results.

The boundaries and structure of this GSA was submitted for review and ultimately approved by the DWR as the adopted GSA for the boundaries shown in Figure 2-1.

The GSA is currently staffed with a general manager, along with consultants that provide a variety of services needed for SFKGSA operations. The tasks which staff and its consultants provide include general oversight, legal services, engineering services, technical evaluation, plan development, and implementation and grant writing.

3. REVENUE REQUIREMENTS

3.1 Introduction

The primary purpose of SFKGSA is to implement SGMA within its boundaries. Since inception, oversight and administrative activities have occurred and will continue annually. In the next several years, technical evaluations will be undertaken to identify the characteristics of the groundwater basin, evaluate technical reports by others, and, in concert with others, continue to implement the GSP prepared for the SFKGSA.

The SFKGSA is seeking approval of an assessment structure to continue to fund its annual administration and operating costs and update the GSP. The assessment rates are proposed as a maximum amount annually set by the Board. If the projected annual fiscal year budget is less than the maximum rate, the Board can set a rate lower than the approved maximum assessment rate but may not exceed the maximum rate.

The Board has the authority to move funding to categories needing additional funding or to offset additional costs within the major categories with grants or other funding. If funds are available from the levied assessment that are beyond the immediate needs of SFKGSA, the Board may also establish reserves for future anticipated costs within these cost categories. It will be up to the Board to set the annual assessment rate and the Board may choose to set the annual rate lower than the maximum rate justified in this report and approved by the unincorporated landowners.

SFKGSA was formed in part to provide the landowners a vehicle to participate in SGMA and under this proposal, SFKGSA is seeking approval from unincorporated landowners to cover annual operational expenses. If a future higher assessment rate is deemed necessary, the Board must comply with the complete Proposition 218 process to increase assessments. The Board may not exceed the annual maximum assessment rate without approval of the unincorporated landowners.

3.2 Groundwater Sustainability Agency Management

GSA Operation and Program Management Costs include the current operations and administrative management and on-going engineering tasks of SFKGSA. Operations and management will be the primary task of the GSA at this time with funds generated through the assessment being used for administration. This includes associated tasks that have been budgeted, such as legal and technical services to be provided on a contract basis.

3.3 GSP Update

SFKGSA is proposing a new flat assessment across parcels to generate revenue to support the GSP update. For the purposes of this report, a budget for the GSP update was developed and listed in Table 3-1. However, the GSA wishes to keep funding flexible related to this task. A description of the GSP update can be found in Attachment B. As one GSP will be prepared for the Tulare Lake Subbasin, the budget represents SFKGSA's portion of the costs in accordance with Memorandum of Understanding. The GSA will be limited by the maximum assessment dollars associated with this report and cannot assess without further approval through another Proposition 218 process.

Table 3-1: GSP Update Budget

Project	Project Cost
2023 GSP Update	$127,500

3.4 Proposed Budgetary Needs

The proposed budgetary needs of the GSA include the costs related to the update of the GSP and ongoing administrative expenses.

In general, the budget needs of the proposed assessment district fall into the following broad budget categories.

1. GSA Management
2. GSP Update

Chart 3-1 below shows the overall allocation of funds in Categories 1 and 2 above, to be requested under the Prop 218 assessment rate election. These categories are specifically designated for required activities.

Chart 3-1: Proposed Budget Allocation

Table 3-2 presents the proposed budget for the GSA Management category and Table 3-3 presents the proposed budget for the GSP Update.

4. RATE SETTING PROCESS

4.1 Overview

The rate setting process used to develop the assessments presented here, included data from different sources, as well as detailed budgeting and expenditures provided by the SFKGSA. This data was analyzed, and projections were made to estimate trends for future fiscal year expenditures and revenues. There are three distinct stages of the rate setting process that must be conducted to develop a sustainable and reasonable rate structure for the GSA.

The first step is to identify the minimum revenue requirements that are necessary for the fiscal management of the GSA. This includes identifying the changes to project cost categories and the minimum reserve requirements and other budgetary policies that have been adopted by the GSA. The proposed rate structure must account for minimum threshold of fund balances to allow the GSA to be consistent with adopted policy, which is required accounting and financial reporting practices.

The second step includes determining the overall cost of operating the GSA and updating the GSP. This step has been simplified because it only includes identifying one consumer classification, residents within the GSA area, which have no fundamental difference other than the size of their individual properties. For SFKGSA, there is only one user class, resident within the service area.

Finally, determining and quantifying any other fixed or variable costs, such as rent (fixed) or electricity (variable), must be included in the rate design. This step will ensure that the GSA has enough funds to maintain very basic but mandatory needs apart from updating the GSP.

Once these steps were completed, the data collected formed the basis for developing a sustainable and viable rate structure for the annual, ongoing operational and oversight needs of the SKFGSA. The sustainability of the rate relies on the completeness of the data collected, identification of variable and fixed costs, inclusion of a reliable inflation factor, and equitable distribution of the utility costs to the consumer base.

4.2 Governing Law

Within California, the establishment of special benefit assessments, taxes or other fees are governed by Articles XIIIC and XIIID of the State Constitution, as adopted by Proposition 218 in 1996. Proposition 218 dictates very specific rules and regulations for how a water rate can be structured, what can be included, and how it is established.

Under Proposition 218, a property related fee or charge, such as an assessment for operations and administration of an agency, cannot be extended, imposed, or increased by the local agency unless the fee or charge meets all the following requirements:[2]

1. Revenues derived from the fee or charge do not exceed the funds required to provide the property related service.

[2] California Constitution, Article XIII D, Section 4.

2. Revenues derived from the fee or charge cannot be used for any purpose other than that for which the fee or charge was imposed.
3. The amount of the fee or charge imposed upon any parcel or person as an incident of property ownership does not exceed the proportional cost of the service attributable to the parcel.
4. The fee or charge is not imposed for a service unless and until that service is used by, or immediately available to, the owner of the property in question. As such, fees or charges based on potential or future use of a service are not permitted. Standby charges are treated as assessments under Proposition 218.
5. The fee or charge is not imposed for general governmental services where the service is available to the public at large in substantially the same manner as it is to property owners. Examples of general governmental services include police, fire, ambulance, or library services.

In short, any proposed rate must show proportionality so that it is generating the necessary funds to properly implement the related service, in this case water service, without generating additional funds for other uses. Implementation of the service may include necessary items such as capital improvements, depreciation, operation and maintenance, and other factors that are deemed necessary for implementation of the service.

4.3 Determination of Benefit

A special assessment, sometimes called a "benefit assessment," is a charge generally levied upon parcels of real property to pay for benefits the parcels receive from local improvements. Special assessments are levied according to statutory authority granted by the Legislature or, in this instance, special legislation passed for specific purpose (SGMA) (League of California Cities, 2007). Under Proposition 218, a special assessment much show that a service or benefit is conveyed to only the identified parcel owners subject to have the charge levied against their property.

4.3.1 Groundwater Management

The SFKGSA was formed in accordance with SGMA to better manage, oversee and create a sustainable groundwater basin for the residents of its service area. As part of its mandates, the SFKGSA is required to develop and implement a GSP to set policies for measuring, monitoring, and overseeing groundwater resources for the future of the area.

The services to be provided are beyond general services received by the properties within the GSA's boundaries. As a result, the service of administrating the GSA day to day duties, constitutes a special benefit to the properties who will receive improved and enhanced groundwater resources through the development of policies and regulations throughout the SKFGSA management area.

4.3.2 Plan Implementation and Oversight

The GSA is required to implement and oversee the policies of the GSP throughout its service area. As part of SGMA, the GSA is required to enforce and oversee the implementation of projects, policies or regulations developed as a result of the GSP.

Without the implementation of such measures, the area would be more reliant on increasingly scarce surface water resources, suffer increasing negative effects of over-drafting and degrade local way of life. There is currently no agency that provides this service within the GSA boundaries and therefore this added service is considered a special benefit to the property owners as residents outside the GSA will not receive the same service.

4.4 Alternative to a Special Assessment

If the SFKGSA is unable to fund activities through Proposition 218 or other financial resources, and implement programs to sustainably manage their groundwater basin, the State Water Board is authorized to intervene and assume control of the service area. As part of State Water Board intervention, the SFKGSA is authorized to levy fees to fund operations and oversight of the identified GSA area. The State has also included a Special Studies Fee for any analyses deemed necessary for the GSA area. These fees would be based on annual self-reporting of extraction of groundwater resources by users within the service area (State Water Resources Control Board, 2023). Draft fees are shown in Table 4-1.

Table 4-1: State Water Board Draft Fee Schedule for Oversight of GSA

Fee Category	Applicable Parties – Reporting Extractors	Fee Amount
Base Filing Fee	Any extractor submitting an extraction report	$300 per well
Fees based on intervention status		
Unmanaged Area Rate	Extractors in an unmanaged area	$10 per acre-foot per year, if metered
		$25 per acre-foot per year, if unmetered
Probationary Basin Rate	Extractors in a probationary basin	$40 per acre-foot per year
Interim Plan Rate	Extractors in a probationary basin after the time period identified by § 10735.4 or § 10735.6 (180 days or one year, accordingly).	$55 per acre-foot per year
Fees independent of intervention status		
Late Fee	Extractors that do not file reports by the due date	25% of total fee amount, accrued monthly
Special Studies Fee	May apply to extractors when basin-specific special studies are required, and the probationary or interim plan rates are insufficient. The additional cost of developing special technical studies such as groundwater investigations or modeling will be apportioned to extractors based on volume of water extracted.	

5. RATE DESIGN ANALYSIS

5.1 Rate Making Objectives

The rate design process is guided by the general rate making objectives, as listed below:

1. Create a reasonable allocation between fixed and variable costs, if any – The proposed rate structure for revenue funds must account for the variable and fixed costs of the GSA and allocate them accordingly. Identification of the various line items as either a fixed or a variable quantity is important to ensure that a rate has a stable structure in order to provide reliable revenues to the GSA.
2. Generate adequate funding to fulfill legislative mandates of the Sustainable Groundwater Management Act – Under SGMA, a GSA is required to achieve essentially three primary tasks: establishment of a service area, develops projects that establishes a regulatory framework for management of the underlying groundwater basin, and then to oversee and implement the GSP in order to promote and eventually improve reliability of groundwater resources within the underlying basin.

These objectives have been developed through general engineering practices for rate setting as well as referring to the mandates and legislative requirements of SGMA for GSAs.

5.2 Customer Classes

Within the proposed service area of the SFKGSA, all residents are viewed as recipients of the oversight services of the GSA. Therefore, there is a single customer class that encompasses all property owners within the service area.

5.3 Expenditure Types

The administration and day to day operations of a GSA differ from other typical services, such as water or wastewater enterprises, as it is not necessarily required to maintain, replace, or maintain infrastructure.

The cost to operate, administer, and implement the mandates of the GSA under SGMA include some fixed costs, such as utilities, insurance or rent, but include mostly variable costs such as implementation, legal services and other general needs of the GSA to update and administer the GSP document and its policies to properly manage the groundwater resources of the subbasin.

The primary expenditure types anticipated for the SKFGSA include the following items:

- GSA Management
  - Includes, but is not limited to, the operation, supervision and general day to day management of the GSA such as payroll, human resources, accounting, and other typical administration tasks. Also includes the oversight, review, and enforcement of regulatory measures within the GSP adopted for regulating the groundwater resources of the service area covered by the SKFGSA.

- GSP Update
  - Preparation of 2023 GSP update including coordination with neighboring GSAs, subbasins, and SWRCB.

6. PROPOSED RATE STRUCTURE

Projected rates for SFKGSA are determined through in-depth analysis of the agency's expenditures to date and projected activities for the future update of the GSP. Assuming a successful assessment election in the fourth quarter of 2023, January 2024 is the earliest period that could be implemented for collection of GSA assessments. As previously mentioned in section 1.3, future assessments will be included in property tax assessments through Kings County.

This rate structure model is sufficient to fund the District's ongoing management and operations, update of the GSP, and fund a reasonable contingency for non-capital expenditures.

Based upon the model developed for this comprehensive approach to GSA operations and program implementation, the maximum rate proposed for the purposes of property tax assessment would be $10.10 per acre, subject to annual review and determination by the Board. The allocation indicated to the City of Lemoore in Table 6-1 is included in the Total Annual Revenue amount stated in Table 7-1 on page 7-1.

Table 6-1: Proposed Rate for SFKGSA

Assessment Rate	
Total Annual GSA Charge per Acre	$10.10
Lemoore Allocation[1]	$56,943.89

Note:
[1] Based on the total area within the city limits of Lemoore. As of the date of this report, the city limits were approximately 8.81 square miles, or 5,638 acres. If the city annexes additional property, this calculation would need to be adjusted accordingly to accommodate the increase in acreage.

7. REVENUE PROJECTIONS

The GSA proposed rate assessment will fully fund district management and administration and plan update, as well as all other ancillary GSA costs.

Table 7-1: Revenue Projections for SFKGSA

Total Annual GSA Charge per Acre	$10.10
Total Annual Revenue	$658,823.00

8. ASSESSMENT ENACTMENT

The proposed assessment would be levied against all property within the service area based on a per acre calculation. The acreage amounts would be obtained from the Kings County Assessor's office and assessment based on the listed size of the property. This assessment is subject to the provisions of Proposition 218 and subject to majority approval of the electorate within the service area.

The total amount for the City of Lemoore would be presented as a lump sum and would not be assessed on the tax roll. Lemoore will participate in GSA cost sharing in accordance with the JPA and has incorporated the ongoing payments into their existing rate structure.

To reiterate the purpose of the assessment, the funds collected would be used to operate the SFKGSA administrative and oversight responsibilities and, fund an update of the GSP.

8.1 SFKGSA Administration and Management

The GSA will provide staff to oversee the mandates of SGMA and provide oversight for day to day operations. The tasks include, but are not limited to, managing operations of the GSA, overseeing execution of task orders, completing technical information and research related to the conditions of groundwater within the subbasin, and coordination with adjacent agencies. This assessment includes funds to properly staff and support the ongoing administration and management of the GSA.

8.2 GSP Update

In response to the Inadequate Determination, the GSA must update the existing GSP. The GSP establishes a regulatory framework for management of the underlying groundwater basin and is then implemented to promote and eventually improve reliability of groundwater resources within the underlying basin. The update of this plan will require funding to allow for the update of technical background reports, analysis, and revisions to the written document. The update of the plan will require additional coordination with adjacent agencies and the SWRCB. The assessment would fund the background technical research and analysis of the groundwater subbasin that will allow for the update of the GSP.

8.3 Continuing SFKGSA Operations and, Management

The GSA will continue its operations, as discussed in Section 8.1, and its implementation and enforcement of the projects, plans, policies and regulations of the GSP. These responsibilities are in addition to the current administration and ongoing, day to day management of the GSA.

8.4 Parcels to be Assessed

Parcels to be assessed are attached as Appendix C to this report. The parcels shown are from the most recent copy of the assessment roll obtained from Kings County. Additionally, parcels within the City of Lemoore will also be calculated utilizing the same per acre calculation identified and be multiplied by the number acres within the city limits annually, however, the funds will be collected from the City through a budget allocation rather than through a property-based

assessment (Kings County Assessor's Office, 2023). Parcels owned by the Federal, state, or local government, including Native American tribes, are exempt from the assessment.

APPENDIX A
Joint Powers Agreement

APPENDIX A

JOINT POWERS AGREEMENT

JOINT POWERS AGREEMENT

FORMATION OF THE
SOUTH FORK KINGS GSA JOINT POWERS AUTHORITY

THIS JOINT POWERS AGREEMENT ("Agreement") is made by and between the CITY OF LEMOORE, EMPIRE WEST SIDE IRRIGATION DISTRICT, STRATFORD IRRIGATION DISTRICT, STRATFORD PUBLIC UTILITIES DISTRICT, and the COUNTY OF KINGS, hereinafter collectively referred to as Members, with reference to the following:

A. In September 2014, California Governor, Jerry Brown, signed three bills (SB 1168, SB 1319, and AB 1739) into law creating the Sustainable Groundwater Management Act of 2014 (the "Act" or "SGMA"), which was amended in September and October 2015 when the Governor signed into law SB 13 and AB 617, respectively.

B. The Act requires the formation of Groundwater Sustainability Agencies ("GSAs") that will be responsible for implementing provisions of the Act as to each groundwater basin and groundwater subbasin falling within the provisions of the Act.

C. The Members overlie a portion of the Tulare Lake Subbasin of the San Joaquin Valley Groundwater Basin (the "Subbasin"), an unadjudicated groundwater subbasin, portions of which underlie the jurisdictional boundaries of each Member.

D. The Members are qualified to exercise powers related to groundwater management within their jurisdictional boundaries and qualify individually to serve as a GSA under the provisions of the Act.

E. Under the Act, a combination of local agencies may elect to form a GSA through a joint powers agreement, or other legal agreement.

F. The Members desire to create a joint powers authority, and are authorized to

enter into this Agreement pursuant to Government Code §§ 6500 et seq. for the purpose of acting as an independent public agency to serve as a single GSA under the Act for areas of the Subbasin underlying the collective jurisdictional boundaries of the Members.

G. Under the Act, each GSA is responsible for assuming its regulatory role by July 1, 2017, and for submitting a Groundwater Sustainability Plan ("GSP") to the California Department of Water Resources ("DWR") by either January 31, 2020 or January 31, 2022, depending on criteria specified in the Act.

H. The County of Kings ("County") has agreed to be a party to this Agreement and participate as a Member in order to ensure complete SGMA coverage over certain otherwise un-districted (sometimes referred to as "white") areas in the Tulare Lake Subbasin within the geographic boundaries of the GSA identified herein by the Members under this Agreement. The County's regulatory role within the scope of its membership in this joint powers authority and related implementation of SGMA is separate and distinct from the County's regulatory, land use, and police powers outside of the scope and purpose of this Agreement. This separate role and related powers are specifically reserved unto the County by State statute and the California Constitution.

I. The Members shall negotiate and enter into Coordination Agreements in accordance with the requirements of the Act with other GSAs in the Subbasin, for the purpose of coordinating each GSA's GSP to collectively manage the Subbasin in a sustainable manner as required by the Act.

J. The Members desire to begin collecting and organizing data, engaging and retaining experts and consultants, and soliciting feedback from stakeholders within the portion of the Subbasin subject to their jurisdiction, for the purpose of preparing a GSP for the portions of the Subbasin subject to their jurisdiction, and

for the purpose of negotiating Coordination Agreements with the other GSAs in the Subbasin to ensure that there is a coordinated plan for managing the Subbasin in compliance with the requirements of the Act.

K. The Members further intend by this Agreement to provide for the management and funding commitments reasonably anticipated to be necessary for the above purposes.

ACCORDINGLY, IT IS AGREED:

1. RECITALS: The foregoing recitals are incorporated herein by reference.

2. DEFINITIONS: Unless otherwise required by the context, the following terms shall have the following meanings:

a. "Act" shall mean the Sustainable California Groundwater Management Act of 2014.

and all regulations adopted under the legislation (SB 1168, SB 1319, AB 1739, SB 13, and AB 617) that collectively comprise the Act, as that legislation and those regulations may be further adopted or amended from time to time.

b. "Authority" shall mean the “South Fork Kings GSA” OR “SFK GSA” which is the public and separate legal entity created by this Agreement.

c. "Board" or "Board of Directors" shall mean the Board of Directors of the Authority as provided in this Agreement to govern and administer the Authority.

d. "Member" shall mean any of the signatories of this Agreement and "Members" shall mean all of the signatories to this Agreement.

e. "Subbasin” shall mean the Tulare Lake Subbasin of the San Joaquin Valley Groundwater Basin, as identified in Bulletin 118 (5-22.12) prepared by the California Department of Water Resources.

f. "Groundwater Sustainability Agency” or “GSA” shall mean an agency authorized by the Act to regulate portions of the Subbasin in compliance with the terms and

provisions of the Act.

h. "DWR" shall mean the California Department of Water Resources.

i. "SWRCB" shall mean the California State Water Resources Control Board.

3. CERTIFICATION: Each Member, as a signatory to this Agreement, certifies and declares that it is a public agency, as defined by Government Code § 6500, that is authorized to enter into a joint powers agreement to contract with each other for the joint exercise of any common power under Article 1, Chapter 5, Division 7, Title 1 of the Government Code.

4. CREATION OF SEPARATE AGENCY: There is hereby created an agency separate from the parties to the Agreement, and which is responsible for the administration of the Agreement, to be known as the "**SOUTH FORK KINGS GSA**". For the purpose of interacting with the banking system the Authority will accept payments in the shortened name of **"SFK GSA."** Within thirty (30) days of the effective date of this Agreement, the Members shall cause a notice of this Agreement to be prepared and filed with the office of the California Secretary of State as required by Government Code § 6503.5.

5. PURPOSES AND MEMBER RESPONSIBILITIES: The Authority is formed for the following purposes and responsibilities of its Members:

a. To jointly form a separate entity to fulfill the role of a GSA consisting of the Members, so that the Members may collectively develop, adopt, and implement a Groundwater Sustainability Plan ("GSP") for the sustainable management of groundwater for that portion of the Subbasin underlying the collective jurisdictional boundaries and service areas of the Members, as those boundaries may be amended or modified from time to time.

b. Notwithstanding their intent to collectively develop, adopt, and implement a GSP, as provided in Water Code § 10720.5, the Members confirm that groundwater management under this Authority shall be consistent with Section 2 of Article X of the California Constitution and that any GSP adopted by the Authority shall

not determine or alter surface water rights or groundwater rights under common law or any provision of law that determines or grants surface water rights. The Members make no commitments by entering into this Agreement to share or otherwise contribute their water supply assets as part of the preparation of a GSP.

c. The geographic boundaries of the GSA contemplated by the Members are set forth in the map attached hereto as Exhibit "A", which is incorporated herein by this reference. The Authority will also represent the Members in discussions with other Subbasin stakeholders, and shall enter into a Coordination Agreement(s) with those that form GSAs in the Subbasin, to achieve an integrated, comprehensive basin-wide plan that satisfies the Act as to sustainable groundwater management for the entire Subbasin. The Authority shall also represent Members in discussions, and may enter into agreements as necessary with GSAs in neighboring subbasins.

d. Each Member may exercise independent power within its own jurisdiction, including but not limited to, the establishment or approval of fees and the exercise and administration of all powers held by each Member with regard to groundwater management and regulation as such Member existed prior to the approval of this Agreement and/or consistent with the Act, except as otherwise provided in this Agreement and/or as required by the Act. Should a Member choose to withdraw from the Authority in accordance with the terms of this Agreement, that Member expressly retains the right to serve exclusively as a GSA, subject to the requirements of the Act, for that portion of the Subbasin underlying its jurisdictional boundaries or service area.

e. Each Member shall retain the right to implement the requirements of any GSP developed by the Authority within each of their respective jurisdictions, unless

otherwise provided for in this Agreement or as required by the Act.

f. The Members enter this Agreement with the intent to operate the Authority in compliance with the requirements of the Act, addressing those operations and programs that can be most cost-effectively handled at the regional level by maximizing local resources, private sector participation and contract services. Each Member will be responsible for adhering to the terms of this Agreement, for constructively participating in the efforts to achieve compliance with the Act, and for timely payment of contributions that are approved by the Board in compliance with this Agreement.

6. POWERS: The Members intend that the Authority provide for the joint exercise of certain powers common to the Members in studying, planning and cooperatively and sustainably managing groundwater in the Subbasin, and for the exercise of such additional powers as are conferred by law in order to meet the requirements of the Act. The Members are each empowered by the laws of the State of California to exercise the powers specified in this Agreement, and to comply with the provisions of the Act and other laws. These common powers shall be exercised for the benefit of any one or more of the Members or otherwise in the manner set forth in this Agreement. Nothing in this Agreement or a future GSP shall be interpreted as superseding the land use authority of the County, including the County General Plan (Water Code §10726.8(f) of the Act). Subject to the limitations set forth in this Agreement, the Authority shall have the powers to perform all acts necessary to accomplish its purpose as stated in this Agreement, including but not limited to the following:

a. To make and/or assume contracts and to employ agents, employees, consultants and such other persons or firms as the Board may deem necessary, to the full exercise of the Authority's power, including, but not limited to, engineering, hydrogeological, and other consultants, and with attorneys and accountants and financial advisors, for the purpose of providing any service

required by the Authority to accomplish its purposes and Member responsibilities identified in Section 5;

b. To conduct all necessary research and investigations, and to compile appropriate reports and collect data from all available sources to assist in preparation of a GSP, and for development of Coordination Agreements with other GSAs in the Subbasin, so as to allow the Members to participate in the sustainable management of the Subbasin in compliance with the Act;

c. To cooperate, act in conjunction with, and contract with the United States, the State of California, or any agency thereof, the other Tulare Lake Subbasin stakeholders or GSAs, or any of them, in the full exercise of the Authority's powers as a GSA;

d. To apply for, accept and receive licenses, permits, water rights, approvals, agreements, grants, loans, gifts, contributions, donations and aid or assistance from any agency of the United States, the State of California or other public or private person or entity necessary for fulfilling the purposes of a GSA;

e. To acquire by grant, purchase, lease, gift, devise, contract, construction, eminent domain or otherwise, and hold, use, enjoy, sell, let, and dispose of, real and personal property of every kind, including land, water rights, structures, buildings, rights-of-way, easements, and privileges, and to construct, maintain, alter, and operate any and all works or improvements, within or outside the agency, necessary or proper to carry out any of the purposes of the Authority (Water Code § 10726.2);

f. To utilize the GSA enforcement powers identified in the Act (Water Code § 10732), including the imposition and collection of civil penalties that shall be utilized in accordance with the requirements of the Act;

g. To sue and be sued in its own name;

h. To provide for the prosecution of, defense of, or other participation in actions or proceedings at law or in public meetings in which the Members, pursuant to this Agreement, may have an interest, and to employ counsel or other expert assistance for that purpose;

i. To adopt an initial operating budget and initial member contributions within ninety (90) days of the execution of this Agreement, and an annual budget and Member contributions to same, by June 30 of each year, unless an alternative date is specified at the time of the adoption of the previous budget;

j. To incur debts, liabilities or obligations, subject to the limitations provided in this Agreement;

k. To impose fees authorized by the Act (Water Code §§ 10730-10731), without any limitation on a Member's ability to impose fees within its jurisdiction, to fund the cost of furthering the purposes of this Agreement, complying with the Act, and sustainably managing groundwater within the Subbasin;

l. To adopt by-laws, rules, regulations, policies and procedures, as deemed necessary by the Board, for governing the operation of the GSA and adoption and implementation of the GSP consistent with the powers and purposes of the Authority and as authorized by Chapter 5 of the Act;

m. To investigate legislation and proposed legislation affecting the Act and the Subbasin and make appearances regarding such matters, and if necessary initiate litigation regarding same;

n. To take such actions as are deemed necessary to achieve its specific and limited purposes as stated above.

o. To the extent authorized by the Act, to exercise any powers in the manner and according to the methods provided under the laws applicable to the Stratford Irrigation District.

7. OBLIGATIONS OF AUTHORITY: No debt, liability or obligation of the Authority shall constitute a debt, liability or obligation of any of the Members, appointed members of the Board of Directors, or committee members.

8. DESIGNATION OF ADMINISTERING AGENCY: The powers of the Authority provided in this Agreement shall be exercised in the manner provided by law for the exercise of such powers by the Members.

9. ORGANIZATION:

a. GOVERNING BOARD: The Authority shall be governed by a Board of Directors which shall be composed of one (1) appointee of each Member ("Principal Director"). The Principal Director shall be a individual currently serving on the Board or Council of each of the Members, and may only be replaced by an individual currently serving on the Board or Council of each of the Members. In the event a Member's Council or Board replaces a Principal Director, the Member shall provide all other Members with notice of the replacements prior to the next Board meeting. Each Member may designate one (1) Alternate Director for the purpose of fully participating on the Authority Board in the same manner as a Principal Director only when a Principal Director is absent. If an Alternate Director is not a member of the Board or Council of the Member agency that he or she represents, said Alternate Director shall be an employee or authorized agent of the Member.

b. BOARD MEMBER TERMS AND COMPENSATION: Directors appointed by a Member shall serve without terms and at the pleasure of the Board or Council of the Member they represent. Directors and Alternate Directors shall serve without compensation, except that they may be reimbursed for reasonable expenses associated with their service on the Board as authorized by the Board.

c. MEETINGS: Regular meetings of the Board may be held quarterly, or as the

Board determines as necessary, on such dates and times and at such locations as the Board shall fix by resolution. Special meetings of the Board shall be called in accordance with Government Code § 54956. All meetings shall comply with the provisions of the Ralph M. Brown Act (Government Code §§ 54950 at seq.).

d. QUORUM: Fifty percent (50%) of the Directors plus one (1) shall constitute a quorum in order to conduct business.

e. VOTING: A simple majority of the Members shall be required for an action of the Board, except that:

(1) A majority vote of less than a quorum may vote to adjourn;

(2) Any of the following actions shall require a supermajority (4/5ths) vote of the Members:

(i) Create and appoint members to a Stakeholder Advisory Committee;

(ii) Enter into contracts or incur debts over $25,000 or for terms in excess of two (2) years;

(iii) Appointment, employment, or dismissal of an employee, including any independent contractor who functions as an employee;

(iv) Compromise or payment of any claim against the Authority;

(v) Acquisition by grant, purchase, lease, gift, devise, contract, construction, or otherwise, and the decision(s) to hold, use, enjoy, sell, let, and dispose of, real and personal property of every kind, including land, water rights, structures, buildings, rights-of-way, easements, and privileges, and to construct, maintain, alter, and operate any and all works or improvements, within or outside the agency, that the Board deems necessary or proper to carry out any of the purposes of the Authority;

(vi) Approval of any Coordination Agreements with other GSAs in the

Subbasin, or any GSA in an adjoining subbasin;

(vii) Approval of a GSP for the portions of the Subbasin identified by the GSA boundaries, including any subsequent modifications to the GSP, and including all decisions involving defining and managing sustainability thresholds, including but not limited to determinations related to sustainable yield, measurable objectives and yearly water budgets and approval of annual reports;

(viii) Approval of actions to utilize the enforcement powers of Chapter 9 of the Act;

(ix) Approval of budget and Member contributions pursuant to Section 12;

(x) Adoption of an ordinance;

(xi) Assessments for Extraordinary Costs pursuant to Section 14;

(xii) Removal of Members from the Authority pursuant to Section 18;

(xiii) Admission of additional members pursuant to Section 19;

(xiv) Initiation of litigation by the Authority.

(3) Any of the following actions shall require a unanimous vote of all Members:

(i) Amendment of this Agreement;

(ii) Election to conduct the audit every two (2) years.

f. MINUTES: The Board shall cause minutes of all meetings to be prepared, and shall maintain a copy in the Authority's records accessible to each Member, as soon as practicable after each meeting. Approval of the minutes shall be by a majority of the quorum.

g. RULES: The Board shall adopt such other rules and regulations for the conduct of its business as a GSA and in the implementation of any GSP as it shall deem necessary or desirable consistent with the provisions of this Agreement and the Act.

h. OFFICERS: The officers of the Authority shall be a Chairperson, Vice-Chairperson, and Secretary, and such other officers as the Board shall designate. The election of officers will take place at the first meeting of each fiscal year. The Treasurer shall be formally designated by a resolution adopted by the Board of Directors stating the effective date of the appointment and the term of the appointment.

i. STAKEHOLDER ADVISORY COMMITTEE: The Board may create an Advisory Committee for the purpose of soliciting information from any potentially affected stakeholders utilizing groundwater within the jurisdictional boundaries of the Authority and potentially subject to the GSP to be developed by the Authority. Membership on the Advisory Committee and the time/date for meetings shall be at the discretion of the Board.

j. MANAGEMENT COMMITTEE: The Board may create a Management Committee for the purpose of overseeing all activities undertaken in pursuit of the goals and objectives of the Authority identified in this Agreement, and for reporting upon same to the Board. The Management Committee may be comprised of one staff person or authorized agent from each of the Members. The Management Committee may, among other things, be responsible for the approval of all expenditures authorized by the Board through their approval of budget appropriations as required herein. The Management Committee may also establish a Technical Advisory Subcommittee for the purpose of assisting the Management Committee and the Board with the technical aspects of GSP development and implementation of the Act. In the event that the Board does not create a Management Committee, the activities the Management Committee would have otherwise performed shall be performed by individuals or agents as designated by the Board in its discretion.

10. FISCAL AGENT, DEPOSITORY AND ACCOUNTING: The Treasurer is designated as the fiscal agent and depository for the Authority, and shall be appointed by the Board as provided in Section 9. The Treasurer shall be the depositary and have custody of all money of the Authority, from whatever source, subject to the applicable provisions of any indenture or resolution providing for a trustee or other fiscal agent. All funds of the Authority shall be held in the joint operating fund established by Section 13, or such other separate accounts as may be necessary, in the name of the Authority and not commingled with the funds of any Member or any other person or entity. Full books and accounts shall be maintained for the Authority in accordance with practices established by, or consistent with, those utilized by the Controller of the State of California for public entities. The books and records of the Authority shall be open to inspection by the Members at all reasonable times, and by bondholders and lenders as and to the extent provided by resolution or indenture.

The Authority shall reimburse the Treasurer for all expenses incurred pursuant to its role as Treasurer, or for any other administrative assistance provided to the Authority. In the event that the Authority appoints a third party to serve as Treasurer, the Authority and the Treasurer shall enter into a separate agreement regarding reimbursement of the Treasurer for any and all contributions and expenses incurred by the Treasurer consistent with this Section.

11. ACCOUNTABILITY, REPORTS AND AUDITS: There shall be strict accountability of all funds, and an auditor designated by the Board shall report any and all receipts and disbursements to the Board with such frequency as shall reasonably be required by the Board. The Authority will utilize the services of an outside independent certified public accountant to make an annual audit of the accounts and records of the Authority as required by Government Code § 6505, unless the Board, by unanimous vote, elect to conduct the audit for a two (2) year period. In each case, the minimum requirements of the audit shall be those prescribed by the State Controller for special districts pursuant to Government Code § 26909, and shall conform to generally accepted accounting principles. The outside independent certified public accountant

selected by the Authority shall be formally designated by a resolution adopted by majority vote of the quorum present stating the effective date of the appointment and the term of the appointment.

12. OPERATING BUDGET, CONTRIBUTIONS, AND EXPENDITURES: The Board shall, by a four-fifths vote of the Members, approve an initial operating budget within ninety (90) days following the execution of this Agreement, to be funded by contributions from the Members of the Authority as specified by this Section. Thereafter, the fiscal year for the Authority shall extend from July 1 to June 30 of each year, and the Board shall, by a four-fifths vote of the Members, adopt an annual operating budget for the coming fiscal year by June 30 of each year, to be funded by contributions from the Members of the Authority, as required to conduct its business in a manner consistent with the purposes of the Authority. Member contributions for an approved budget shall be equally allocated to each Member, unless said approved budget specifically requires disproportionate contributions. The Members may also fund the annual operating budget through the imposition of fees, assessments, charges and/or civil penalties as authorized by the Act and any other applicable California laws and local regulations. It shall be the intent of the Members to reimburse past Member contributions.

The Authority shall have the power to establish a joint operating fund. The fund shall be used to pay all administrative, operating and other expenses incurred by the Authority, and shall be funded by each Member's contributions as set forth in the initial and annual operating budget as required by this Section. All expenditures within the designations and limitations of the applicable approved budget appropriations shall be made upon approval of the Management Committee. The Treasurer shall draw checks or warrants or make payments by other means for claims or disbursements not within an applicable budget only upon the approval of the Board and in accordance with Board directions and authorizations concerning authorized account signatories. The Authority may invest any money that is not required for its immediate necessities in the same manner, and upon the same conditions, as any local agency may do by law.

13. ALTERNATIVE FUNDING SOURCES: In addition to the Member contributions contemplated by Section 12, the Authority may also seek funding from other alternative sources, including but not limited to state and federal grants or loans. Unless specifically allocated by majority vote of the quorum present, all funding contributions obtained from alternative sources shall be equally allocated to each Member, for use by the Authority consistent with its powers and purposes.

The Board may arrange payment of the expenses of the Authority through an alternative funding source. In accordance with Government Code § 6512.1, the Board may direct repayment or return to the Members of all or part of the contributions made by the Members, upon such terms as may be consistent with any indebtedness incurred by the Authority. Unless otherwise prohibited by the alternative funding source, said alternative source's funds will be disbursed before local funds for covered Authority obligations.

14. ASSESSMENTS FOR EXTRAORDINARY COSTS: In the event the Authority should experience an unanticipated need to pay for extraordinary costs, or to pay for any and all costs of litigation or indemnification as provided in this Agreement, to the extent not covered by insurance, and to the extent that such costs cannot otherwise be reasonably funded through use of reserves on hand or through the other revenue sources authorized by this Agreement, the Board may authorize an assessment of extraordinary costs, whether actually incurred or estimated to be necessary, by a four-fifths vote of the Members. The assessment of extraordinary costs authorized by this Section shall be equally allocated to each Member, unless specified otherwise by the Board. The Members agree that they will then furnish the Authority with the funds authorized by the assessment for extraordinary costs within a reasonable period of time as determined by the Board.

15. INITIAL STAFFING CONTRIBUTIONS: The Authority initially intends to pursue the goals and objectives identified in this Agreement by utilizing the staff of each of the Members to pursue those operations, investigations and programs that can be most cost-effectively handled

by maximizing Member staff and resources. The Management Committee shall meet to determine the respective initial staffing contributions of the Members that will be utilized during the time period covered by the initial operating budget. Thereafter, all Member staff contributions to conduct the activities of the Authority shall be recommended by the Management Committee for approval by the Board at the time for adopting the annual budget for the Authority. In the event that the staffing contributions of the Members recommended by the Management Committee are not allocated equally amongst the Members, the Board may adjust the Member contributions in the budget as specified in Section 12 herein.

16. DISPUTE RESOLUTION: Should any controversy arise among or between Members concerning this Agreement or the rights and duties of any Member under this Agreement, the Members shall submit the matter to a person appointed by a majority vote of the Management Committee to mediate the dispute. The appointed mediator shall be a person who is not an employee or agent of any Member and, if necessary, as determined by a majority of the Management Committee, shall be a person who has knowledge of and experience in the management of groundwater resources. The appointed mediator shall recommend a decision on the matter in dispute and will be compensated by the Authority.

17. WITHDRAWAL OF MEMBERS:

a. NOTICE TO MEMBERS: Any Member may withdraw from the Authority by delivery of written notice, pursuant to Section 26, of its intent to withdraw from the Authority, to each of the Members, at least one hundred twenty (120) days prior to the date of withdrawal ("Withdrawal Notice Period"). The remaining Members may, but shall not be required to, consent to a shorter Withdrawal Notice Period

b. EFFECT OF WITHDRAWAL: The withdrawal of a Member shall have no effect on the continuance of this Agreement among the remaining Members. After providing written notice of withdrawal, the withdrawing Member shall neither be entitled nor obligated to participate in a vote on any matter before the Board, including but not

limited to adoption of the annual operating budget required by Section 12 and the assessment for extraordinary costs allowed by Section 14.

c. CONTINUING FISCAL OBLIGATIONS: Any Member that withdraws as provided herein shall remain proportionately liable during the Withdrawal Notice Period for its proportionate share of the annual operating budget required by Section 12. If the Members have approved extraordinary costs in accordance with Section 14 prior to the date of written notice of withdrawal of a Member, the withdrawing Member shall be proportionately liable for the obligations or debts approved and incurred by the Authority for those extraordinary costs. Any Member that withdraws shall remain proportionately liable for any unfunded capital expenditures approved prior to the date of written notice of withdrawal of such Member.

d. CONTINUING CLAIMS OBLIGATIONS: Members will remain obligated to contribute their proportionate share (based upon the membership roll as of the date of the claim), including without limitation legal defense costs, for any occurrences incurred during the Member's membership prior to the date of written notice of withdrawal of such Member, but not presented as a claim against the Authority until after the Member's withdrawal.

e. DIVISION OF PROPERTY ASSETS: The real or personal property assets contributed by the withdrawing Member or the value of the real or personal property assets at the date of withdrawal will be returned to the withdrawing Member.

18. REMOVAL OF MEMBERS:

a. NOTICE OF REMOVAL: The Board, by a vote of four-fifths of the Members, may remove a Member from the Authority. Removal of the Member by the Board shall be effective upon delivery, pursuant to Section 26, of written notice of removal to the removed Member.

b. EFFECT OF REMOVAL: The removal of the Member shall have no effect on the continuance of this Agreement among the remaining Members. After providing written notice of removal, the removed Member shall neither be entitled nor obligated to participate in a vote on any matter before the Board, including but not limited to adoption of the annual operating budget required by Section 12 and the assessment for extraordinary costs allowed by Section 14.

c. CONTINUING FISCAL OBLIGATIONS: Any Member that is removed as provided herein shall remain proportionately liable for the obligations or debts approved by the Authority, including any unfunded capital expenditures, prior to the date of delivery of written notice of removal of such Member.

d. CONTINUING CLAIMS OBLIGATIONS: Removed Members will remain obligated to contribute their proportionate share (based upon the membership roll as of the date of the claim), including without limitation legal defense costs, for any occurrences incurred during the removed Member's membership, but not presented as a claim against the Authority until after the Member's removal.

e. DIVISION OF PROPERTY ASSETS: The real or personal property assets contributed by the removed Member or the value of the real or personal property assets at the date of delivery of notice of removal will be returned to the removed Member.

19. ADDITION OF MEMBERS: The Board shall allow additional members to join the Authority by a vote of four-fifths of the Members. Additional members must be capable, qualified and authorized to participate in a JPA and a GSA under the Act, and must be located within the Subbasin. The Board may set whatever conditions it deems necessary in order to allow the inclusion of additional members, including but not limited to, the reimbursement of such prospective member's proportionate share of the costs already incurred by the Members.

20. TERM AND TERMINATION: This Agreement shall become effective, and the

Authority shall come into existence, on the date that the last of the named parties executes the Agreement. The Agreement, and the Authority, shall thereafter continue in full force and effect until four-fifths of the Members elect to terminate the Agreement.

Upon effective election to terminate this Agreement, the Board shall continue to act as a board to wind up and settle the affairs of the Authority. The Board shall adequately provide for the known debts, liabilities and obligations of the Authority, and shall then distribute the assets of the Authority among the Members, as follows:

a. The assets contributed by each Member, or the value thereof as of the date of termination shall be distributed to that entity.

b. The remaining assets shall then be distributed to each Member in equal proportions.

The distribution of assets shall be made in-kind to the extent possible by returning to each Member those assets contributed by such parties to the Authority; however, no party shall be required to accept transfer of an asset in kind.

Notwithstanding any other provision by the Board for payment of all known to debts, liabilities and obligations of the Authority, each of the Members shall remain liable for any and all such debts, liabilities, and obligations in equal proportions, or in the proportion specified by unanimous action of the Board if alternative proportions are so specified for particular actions or activities that give rise to such debts, liabilities, and obligations.

21. INDEMNIFICATION/CONTRIBUTION: The Authority shall hold harmless, defend and indemnify the Members, and their agents, officers and employees from and against any liability, claims, actions, costs, damages or losses of any kind, including death or injury to any person and/or damage to property (including property owned by any Member), arising out of the activities of the Authority, or its agents, officers and employees under this Agreement. The foregoing indemnification obligations shall continue beyond the term of this Agreement as to any acts or omissions occurring before or under this Agreement or any extension of this Agreement.

22. INSURANCE: The Authority shall obtain general liability insurance, which shall include public officials and management liability coverage, and containing liability coverage in such amounts as the Board shall determine will be necessary to adequately insure against the risks of liability that may be incurred by the Authority. The Members, alternates, their officers, directors and employees, shall be named as additional insureds.

23. CLAIMS: All claims against the Authority, including, but not limited to, claims by public officers and employees for fees, salaries, wages, mileage, or any other expenses, shall be filed within the time and in the manner specified in Chapter 2 (commencing with Section 910) of Part 3, Division 3.6 of Title I of the Government Code, which describes the appropriate content of a claim.

24. ENTIRE AGREEMENT REPRESENTED: This Agreement represents the entire agreement among the parties as to its subject matter and no prior oral or written understanding shall be of any force or effect. No part of this Agreement may be modified without the written consent of all of the parties.

25. HEADINGS: Section headings are provided for organizational purposes only and do not in any manner affect the scope, meaning or intent of the provisions under the headings.

26. NOTICES: Except as may be otherwise required by law, any notice to be given shall be written and shall be sent by first class mail, postage prepaid and addressed as follows:

Notice sent by first class mail shall be deemed received on the fourth day after the date of mailing. Any party may change the above address by giving written notice pursuant to this Section.

27. CONSTRUCTION: This Agreement reflects the contributions of all parties and accordingly the provisions of Civil Code Section 1654 shall not apply to address and interpret any uncertainty.

28. NO THIRD PARTY BENEFICIARIES INTENDED: Unless specifically set forth, the parties to this Agreement do not intend to provide any other party with any benefit or enforceable legal or equitable right or remedy.

29. WAIVERS: The failure of any party to insist on strict compliance with any provision of this Agreement shall not be considered a waiver of any right to do so, whether for that breach or any subsequent breach.

30. CONFLICT WITH LAWS OR REGULATIONS/SEVERABILITY: This Agreement is subject to all applicable laws and regulations. If any provision of this Agreement is found by any court or other legal authority, or is agreed by the Members, to be in conflict with any code or regulation governing its subject, the conflicting provision shall be considered null and void. If the effect of nullifying any conflicting provision is such that a material benefit of the Agreement to any Member is lost, the affected Member or Members may withdraw from or terminate this Agreement. Unless terminated, the remainder of the Agreement shall continue in full force and effect.

31. FURTHER ASSURANCES: Each party agrees to execute any additional documents and to perform any further acts which may be reasonably required to affect the purposes of this Agreement.

32. COUNTERPARTS: This Agreement may be signed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

33. AMENDMENT: This document may only be amended with a unanimous vote by its Members.

Memorandum

Date: 17 August 2023

To: Paul Stiglich, SFK GSA

From: Amer Hussain, Geosyntec

Subject: Project Assessment

INTRODUCTION

The South Fork Kings Groundwater Sustainability Agency (SFK GSA) is seeking to renew the land assessment fees through the Proposition 218 election process. This memorandum presents the benefits anticipated by the proposed projects. A successful proposition 218 would allow the SFK GSA the ability to fund the GSP update. The benefits from projects would address the deficiencies listed in the Department of Water Resources (DWR) Inadequate Determination letter dated March 2, 2023.

2023 GSP UPDATE

The SGMA regulations require that the GSP be updated every five years and an update is due by December 2023. The Tulare Lake Subbasin prepares a combined GSP for the entire subbasin which SFK GSA participates in the preparation.

The estimated cost of the project is $750,000 with SFK GSA portion being $127,500.

The anticipated benefit of the project is a compliance benefit. The benefit is the ability to share costs with landowners across the subbasin to comply with State law.
